

# CPR Class

In an effort to ensure Manchester employees and visitors to Town buildings receive early lifesaving response, the Manchester Health Department is offering a free American Heart Saver CPR training class to employees. Early response is proven to increase the chance of survival for a cardiac arrest victim. Training covers adult and child CPR, proper use of AED and choking management.

This two hour class will be taught at the Manchester Senior Center as follows:

**Wednesday, August 14, 2013 from 1:30 to 3:30**

Please confirm coverage with your supervisor and call the Manchester Health Department at (860) 647-3173 to register.
